DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

Claims 11-16 are rejected under 35 U.S.C. 102(e) as being unpatentable by Watanabe et al. (US 6269303B1).

The reference to Watanabe et al. has been indicated as disclosing a vehicle navigation system and recording medium, comprising the following:

A memory device that stores the navigation data such as the current position and destination data. And said the navigation system includes a key card reader for reading data recorded on an IC card or a magnetic card (column 4, lines 1-10).

The audio data are stored in the memory and they are reproduced to the sound from the speaker 16 (Figure 1).

And said the navigation system and recording medium performs a route search based on the map information that is stored in the memory (see abstract).

Art Unit: 3663

Watanabe et al. further explain that said navigation method and recording medium comprising the step of reading audio data associated with the navigation destination from the memory of the navigation card (see column 4, lines 1-10).

As discussion above, Watanabe et al. reference clearly read on every elements recited in those claims, therefore, the application is rejected under 102 art rejection.

Conclusion

The prior art made of record, which are listed in PTO-892, and not relied upon are considered pertinent to applicant's disclosure includes the following: Nishimura's, Ouimette's, Nanba et al's, and Beckert et al.'s.
